

HEALTH PRODUCT DECLARATION KEY MESSAGES

Dörken DELTA®-VENT S and DELTA®-VENT SA air barrier systems have a Health Product Declaration® v2.0.

- The Health Product Declaration® Collaborative (HPDC) is a not-for-profit, member organization. Its purpose is to improve building through transparency and disclosure of product composition
 - The HPD allows specifiers to provide a selection of building products with full knowledge and associated health information
-

DELTA®-VENT S and DELTA®-VENT SA comply with LEED v4 certification

- When specifying DELTA®-VENT S and DELTA®-VENT SA, the HPD is a flexible tool for achieving the LEED v4 Material Ingredient Reporting credit
 - Architects designing LEED-certified buildings can be even more confident in the high-performance, water-resistive, and self-adhesive air barriers because they are accepted by the Health Product Declaration Collaborative
-

DELTA®-VENT SA is the first self-adhesive air and water-resistive barrier to have an HPD v2.0.

- Architects designing LEED-certified buildings can be even more confident in the DELTA® line because Dörken continually strives to provide the highest-quality products and credentials
- DELTA®-VENT S and DELTA®-VENT SA provide a comprehensive overview of the ingredients used in the membranes.
