

Tough and Durable Drainage.

DELTA®-DRAIN

The direct route for re-directing ground water.

- Easy to install.
- High drainage capacity.
- High compressive strength.
- Prevents build-up of hydrostatic pressure.
- Highly effective protection layer for all types of weather.
- Ideal for residential and light commercial foundations.
- Special geotextile will not rot and prevents clogging dimples.
- Highly chemical and environmental stress crack resistant, like acidic soils or alkalinity (concrete).
- Can be used for both horizontal and vertical applications.
- Tough and durable, stands up to the rigors of jobsites.
- DELTA® Accessories ensure complete drainage system.
- Effective drainage protection board for all waterproofing systems.
- Resist damage in cold weather.
